THIS MONTH.....

100 YEARS AGO

Local: The doctor excluded Dorothy Heyward from Trusham School as she was diagnosed with scarlet fever. He ordered pens, pencils and books she had been using to be burned.

National: June 13th first attack on London by 20 German Gotha bombers inflicted the highest death toll of a single raid, killing 162, including 18 young Poplar pupils.

International: A British victory, at Messines Ridge, marked a beginning of a break in the Western Front stalemate, after months of tunnelling (2000' long, up to 100' deep) had enabled explosives (almost 1 million pounds) to be placed under German positions. US troops made their first appearance in France.

CHUDLEIGH HISTORY GROUP

The next meeting is on **Friday June 2nd**, when Christopher Pidsley, Chudleigh's previous vicar for twenty-eight years, and Alan Brunton will be giving a presentation on 'Anecdotes from Chudleigh's Past'. This will be in an informal setting with free wine, soft drinks and nibbles. With no presenter's fees to pay for, we can subsidise the evening, although non-members will be charged £3 entry. A good night is anticipated.

For further details of our programme phone Alan on 852714 or [http:// www.chudleighhistorygroup.com/](http://www.chudleighhistorygroup.com/)

DON'T FORGET!

Thursday 8th June 7am-10pm

A right won for us by the likes of Chartists, and Suffragettes

CHUDLEIGH & DISTRICT AMENITY SOCIETY

In April, Mark McNair spoke about the scientific background to the production of genetically modified crops. Beneficial genes are inserted into or alternatively harmful genes are deleted from the DNA of a plant to produce the desired effect. The licensing of these plants is very closely controlled so that, as a rule, it is only the product of the plant that is harvested and not the plant itself. In all cases, benefits are weighed against risks and only those where there is a clear benefit are marketed. In this country, as we have more than enough to eat we do not need food from genetically modified plants. There is also an irrational fear of the unknown and it is perceived that all benefits go the developer and all risks are taken by the consumer, it is unlikely that genetically modified plants will be licensed here any time. However the USA has embraced the technology (e.g. soya beans) and in many third world countries, e benefits (e.g. drought resistant plants) could be life saving. Attended by 32 members and 5 guests it was an excellent talk that was both educational and entertaining.

Our talk on **16th June**, "Walking in Spain" will be given by Terry Brighton who will be describing his walk to Santiago de Compostela.

During the summer, CADAS will be organising trips for members. There will be a visit to Ugbrooke House on **12th July** and on **17th November** Lady Clifford will be telling us about its restoration. The final visit on **24th August** will be a walk along the Stover Canal, a magical place that has undergone considerable restoration and exploration over the past eighteen years.

Many thanks to Daj and Caroline for an entertaining quiz and sustaining refreshments. Pauline and Tim will be in charge of the mid-summer mind-scrutiny on **Friday 16th June - 7.30pm**. Come and join us for friendly fun - for £4 - including light refreshments.

CAUSLEY CONNECTION

This is advanced notice of a planned fundraising walk by Charles Causley's biographer, Laurence Green. He has been researching the esteemed poet and his connections to Trusham and believes that Charles's father's grave lies in an unmarked plot within our own churchyard. Laurence is planning to walk from Trusham to Launceston (Causley's home town) to raise money for a headstone to be purchased to mark the place where the poet's father 'Charlie' lies. As Charlie died after 1921 he was not entitled to an Imperial War Graves headstone and the family, being very poor, had no money for such like. Laurence intends to set that right. He will be leaving for this epic journey on **22nd August** from Trusham Church and would appreciate any support from locals. More advice and details later.

DOGGIES DO! SOME OWNERS DON'T

A dog or some dogs have been doing what dogs do, but shouldn't in various parts of Trusham. Caring owners don't let their dogs out alone; careless owners don't clean up after their dogs. This is dangerous, dirty and downright antisocial. Please don't embarrass your pet.
